8.6 What is your process for selecting local administering agencies?

In selecting a local agency, preference is given to any CAA or other public nonprofit entity which has, or is currently administering, an effective program under any low-income energy assistance or weatherization program.

Program effectiveness is evaluated by considering the following factors including, but not necessarily limited to:

- 1) The extent to which the past or current program achieved or is achieving LIHEAP goals in a timely fashion;
- 2) Meeting the fiscal requirements established in regulations and state policies;
- 3) The quality of service delivered by the local agency;
- 4) The number of qualifications and experience of the staff members of the agency; and
- 5) The location and proximity to the vacant territory.

Local agencies responding to a formal request for proposals are required to attend a hearing conducted by LHC to present their proposal and answer questions.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Exceptions are allowed under circumstances when a new vendor or existing vendor is not set up to receive payment directly from LHC and/or refuses to accept a pledge on behalf of an eligible applicant. The Contractor may request reimbursement for the payment made to prevent a shut-off or disconnection. There are 89 out of 322 energy vendors that are not set up to receive payments directly from the LHC. Most of these are very small mom/pop vendors that refuse to sign a Vendor Agreement and provide other related documents. Applicants have minimal choice for utility vendors and must use the utility vendor in their location; therefore, LHC does not discriminate against an applicant whose vendor chooses not to sign. LHC is continuing to educate vendors in regards to the Vendor Agreement.

9.2 How do you notify the client of the amount of assistance paid?

The Hancock Energy Software (HES) generates a Client Qualification Notification letter, which is provided to the client at the end of the application process.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Vendor Agreement contains a provision to assure the vendor will not discriminate, neither in costs or goods supplied nor the services provided, against the household on whose behalf benefit payments are made.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Vendor Agreement contains a provision to assure customers receiving assistance from the LIHEAP will not be treated adversely because of such assistance under applicable provision of State law and public regulatory requirements.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Unregulated Energy Vendors are not included as LIHEAP energy providers.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

The LHC financial operations manual establishes the framework and procedures for budgeting, reporting, internal controls, cost allocation, and accountability as described in the costs principle applicable to the grant.

Contractors submit weekly electronic copies of the Request for Payment to LHC for their benefit payments based on eligible households and monthly Request for Payment to LHC for actual administrative, program, and client education expenditures.

LHC conducts monthly reconciliation of funds and expenditures with sub-recipients to ensure accuracy and reliability for data reporting.

All LIHEAP expenditures are tracked and monitored using the web-based software, Hancock Energy Software (HES) and MS Excel spreadsheets.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices? Select all that apply.

Grantee employees:

- Internal program review
- Departmental oversight
- Secondary review of invoices and payments
- Other program review mechanisms are in place. Describe:

LHC utilizes the available reporting system of the Hancock Energy Software (HES) to monitor contractor's production and service delivery to timely ensure all contractors are maintaining service delivery in accordance with contractual obligations.

Local Administering Agencies / District Offices:

On - site evaluation

Annual program review

Monitoring through central database

Desk reviews

Client File Testing / Sampling

Other program review mechanisms are in place. Describe:

In the event of a natural disaster, statewide pandemic, or other emergency, LHC may adapt monitoring methods as a result of the event and the Agencies' resources. Those methods will be determined based on circumstances surrounding the event and the associated timelines.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Louisiana Housing Corporation (LHC) has adopted a systems approach to monitoring Contractors for compliance with applicable regulations and achievement of performance goals.

Program activities are monitored both electronically and by conducting on-site visits annually. The State mandated software is used to record application input and monitor Contractor's production, i.e., how many applications are taken in a given time frame; how many of those applications were Heating/Cooling applications; how many were Crisis applications; how many households were served; and how many priority members were included in those households. We are also able to monitor the rate of benefit delivery to the specific service area. This information is utilized, to not only monitor the rate of service delivery, but also the areas being served. Those areas can be identified within a service provider's geographical service area, needing extra attention and outreach.

During the on-site monitoring visits, the physical files are reviewed for documentation of various program mandated activities, such as:

- (A) Written policies and procedures that prohibit discrimination in both service delivery and employment,
- (B) Compliance with Minimum Wage laws,
- (C) Written policies regarding grievance procedures for both applicants and employees,
- (D) Written policies regarding providing services to eligible applicants on a first come, first served basis,
- (E) Written policies that document adherence to written Program Guidelines approved by Louisiana Housing Corporation,
- (F) Documentation of employee training on program guidelines,
- (G) A review of various documents that demonstrate program outreach activities including newspaper ads, radio and/or television advertising, copies of any printed material distributed in the community to applicants and potential applicants, social media,
- (H) A review of Client Education material distributed to applicants regarding energy conservation activities,
- (I) A review of a random sample of applicant files to verify the collection of required support documentation from eligible applicants, including income, vulnerability of the client for the cost of the energy bill, confirmation of residence at the service address indicated on the bill, copies of Social Security Cards or other government documents that contain social security numbers for each member of the household being served,
- (J) Written policies and procedures to detect, minimize, and eliminate waste, fraud, and abuse.

Eligibility and benefit determination is handled through the web-based computerized application system adopted by the LHC. The program is designed to calculate benefit based on parameters that are entered at the state level and that are unalterable at the service provider level.

Benefit calculations are based on income levels for each household, the number of eligible household members, and the identification of priority members of the household, i.e., persons over 60 years of age, persons disabled, or persons under the age of 6. The benefit calculation is totally, automated requiring only data input from the agency provider. Eligibility is also determined by the same system utilizing social security numbers of applicants and flagging those applicants or household members that may have received a benefit within the prohibited timeframe. Applicants may currently apply for non-crisis benefits once in the heating season and once in the cooling season, and if necessary, applicants may also apply for a crisis benefit once in a twelve month period.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

LHC, as the state grantee, conducts annual on-site compliance monitoring visits to all LIHEAP contractors.

Desk Reviews:

LHC staff conducts ongoing desk monitoring of agency reports, budget tracking and statistical reports, and rate of expenditures.

10.8. How often is each local agency monitored ?

All Contractors are monitored at least once annually.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

10.10. What is the combined error rate for benefit determinations? OPTIONAL

10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 7

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Energy education is provided to eligible and ineligible households. Local agencies are required to develop active, participatory energy conservation education activities. They are also encouraged to use educational activities that can be carried out while the applicant is waiting for intake. Services can include counseling, assistance with negotiations with energy vendors, outreach, referrals to the Weatherization Assistance Program, and energy efficiency education materials.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

A percentage is set in the State Plan and the amount is obligated upon receipt of the grant award.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Assurance 16 funds were used to purchase energy kits, which included LED bulbs, energy calendars, energy wheels, and coloring books for children. Sub-grantees also purchased laptop computers, modems, scanners, televisions with built in DVD players, and portable printers to deliver educational videos and serve clients in rural areas who are unable to travel to an office. LED night lights, weather stripping tape, advertisement spots and materials were also purchased to educate the public about the LIHEAP program including personnel time. LHC is estimating 46,395 households will benefit from Assurance 16 funds based on preliminary numbers received from Subgrantees this year. The LHC is currently working with sub-grantees to utilize FY 2020 Client Education funds prior to the end of the 09/30/2021.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Assurance 16 funds were used to purchase energy kits, which included LED bulbs, energy calendars, energy wheels, and coloring books for children.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

LHC has worked with APPRISE, our HES software Developer, and LHC Technical Support department to collect the required performance data. LHC sent the vendor received data to APPRISE for assistance in determining the necessary calculations in March 2020. There is still some trouble converting and matching the data received from the vendors. This past year, LHC also had trouble collecting data from one of the largest electricity vendors due to software changes implemented in April 2019. LHC finalized the FY19 Performance Data in June 2020, with the help of Apprise. Due to software delays and COVID-19, LHC had to postpone the full release of the Hancock LIHEAP Cloud software which has promised improvement to Performance Measure tracking. This software will be released with the FY2021 Grant. In October 2020, we will begin requesting vendor data for FY2020 and anticipate continued improvement in data collection as we have increased Subgrantee training.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of

the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals)

- (b) Establishing an ongoing drug-free awareness program to inform employees about --
 - (1) The dangers of drug abuse in the workplace;
 - (2) The grantee's policy of maintaining a drug-free workplace;
 - (3) Any available drug counseling, rehabilitation, and employee assistance

programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted --(1)

Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

FY 2021 LIHEAP Public Hearing 08/31/2020

The meeting was called to order @ 10:05 am by Lauren Holmes, Program Administrator for the Louisiana LIHEAP and Weatherization Programs, via GlobalMeet. There were 12 attendees. Of the 12 attendees, 7 were identified as the following:

Faye Kinner
Jessica Hendricks
Mitchel Chauvin
Priscilla Leblanc
Bridget McGee
Dashera Reed
Tanettra Bell

Lauren Holmes: “Good morning.

Thank you for joining us for the Fiscal Year 2021 Low Income Home Energy Assistance Program (LIHEAP) Model Plan Public Hearing for the State of Louisiana. My name is Lauren Holmes, and I am the Program Administrator for the Louisiana LIHEAP and Weatherization programs.

We ask that all callers put your phones on mute at this time. This hearing is being recorded and will be available by email request to tbell@lhc.la.gov.

The Proposed FY2021 Louisiana LIHEAP Model Plan and Changes were posted to the Louisiana Housing Corporation website on August 21, 2020 for public review and response.

Louisiana’s LIHEAP program consists of a Heating Assistance program that runs November 15 to March 15, a Cooling Assistance program that runs April 1 to September 30 or until funds are expended, a year round Crisis Assistance program, and a Weatherization Assistance program that runs July 1 to June 30. No changes have been proposed to the time frames or to the allocations of funding for FY2021.

The primary change to the FY2021 program year are the proposed Heating, Cooling, and Crisis Benefit Matrices. Louisiana is proposing an overall increase to all energy burden categories with higher increases proposed for those individuals with higher energy burdens. Energy burden meaning the percentage of income that a household pays in heating and cooling costs. The proposed increase to the Crisis Assistance cap is \$125 per household.

The Louisiana Benefit Matrices have not been adjusted in many years and are no longer reflective of the increased costs associated with the State’s heating and cooling costs. We are hoping that these changes will continue to meet the needs of our clients as we move into the next year.

The other proposed changes are related to expansion and clarification of the uses of Crisis Assistance in light of the impacts of COVID-19. The expanded language reserves the right for Louisiana to develop a separate benefit matrix in the event that Supplemental funds are granted or available to address unforeseen circumstances (i.e. public health emergencies).

These changes were discussed and approved within the State's Energy Assistance Policy Advisory Council earlier this month along with feedback and recommendations from our LIHEAP Subgrantee partners across the State.

As of this hearing, we have received one comment from the Alliance for Affordable Energy, which I will read now:

"The Alliance for Affordable Energy appreciates the Louisiana Housing Corporation's acknowledgement of Louisiana's high energy burden and supports the increase in funding to those most negatively impacted within the 2021 LIHEAP Model Plan. Louisiana has some of the highest energy bills in the country, and in turn, some of the highest energy burdens. Sustaining the 15% budget allocation for weatherization and pushing the Louisiana Public Service Commission for long-term energy efficiency programs will serve to mitigate one of the root causes of high energy usage, while in the meantime increased funding to those most affected by energy burden will help keep the lights on for many struggling Louisianans. Further, as many of our residents find themselves struggling financially due to COVID-19, it's important to expand the crisis and emergency definitions to include public health emergencies, and the Alliance for Affordable Energy supports those changes as well. Thank you and we look forward to continuing to work with the LHC."

At this time, we will open the hearing up to any comments or feedback. You may unmute your line, or type within the chat box and we will read those aloud and address them.

No comments received via chat box or verbally.

We will now close the Public Hearing. We appreciate you for participating with us today. Comments may still be submitted until 12:00pm CST today. Following the comment period, LHC will evaluate any additional comments received and proceed with submission of the plan to DHHS tomorrow for timely funding of the 2021 funds to be awarded in November.

Please stay safe and continue to say prayers for our neighbors impacted by Hurricane Laura. Thank you!"
